Coaching For the Working Woman In the Work Place

Strike A Balance Life Design is currently seeking corporate sponsorship to help women balance their lives.

Strike A Balance Life Design is dedicated in our efforts to helping women find balance. There is so much to do in one given day and sometimes women need a fresh point of view on how to balance it all.

When it comes to raising children, sometimes it does take a village. Staying on track is an ongoing challenge and when women become unbalanced, their work environment may suffer.

Strike A Balance Life Design can provide group coaching to women and the work place to help deal with it all. A power balance group provides ideas for communicating more efficiently with family, friends and co-workers, techniques for scheduling priorities and other valuable techniques for the job of living.
